How to add printer driver to P-1000

Procedure:
1. Download the file (Driver) corresponding to your printer.
2. Copy the extracted file to the root of your memory card.
   Ex:EPSVxxx.fnc
3. Insert the compact flash card (or memory card with compact flash adapter) into your P-1000 and power on the unit.
4. Push the "Print" button by the main menu.
   The display becomes a printer set screen.
   Select the "Install Printer Driver"
   Push "OK"
5. After awhile, the driver is registered.
   Push "Cancel" if the printer list is displayed.
   It returns to printer screen.
6. For each printer driver repeat this operation
7. Confirm if printer driver is record into the P-1000.
8. Push "Cancel" twice to return to the main menu.
